Студенческие микроскопы А11

Student A11

Student microscope, mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one camera for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1536-B

Student biological microscope, binocular

2022 New School of Design Biological Microscope 40x-1000x

Binocular and trinocular head with 30° tilt, 360° rotation with WF10x/18 mm eyepiece

Quadruple Revolver with Precise Click, Achromatic, Half Plane, Plane 4x, 10x, 40x (S), 100x (O, S)

A11.1536-T

Student biological microscope, trinocular

2022 New School of Design Biological Microscope 40x-1000x

Binocular and trinocular head with 30° tilt, 360° rotation with WF10x/18 mm eyepiece

Quadruple Revolver with Precise Click, Achromatic, Half Plane, Plane 4x, 10x, 40x (S), 100x (O, S)

...

A11.1537-B

Student biological microscope, binocular

2022 New School of Design Biological Microscope 40x-1000x

Binocular and trinocular head with 30° tilt, 360° rotation with WF10x/18 mm eyepiece

Quadruple Revolver with Precise Click, Achromatic, Half Plane, Plane 4x, 10x, 40x (S), 100x (O, S)

...

A11.1537-T

Student biological microscope, trinocular

2022 New School of Design Biological Microscope 40x-1000x

Binocular and trinocular head with 30° tilt, 360° rotation with WF10x/18 mm eyepiece

Quadruple Revolver with Precise Click, Achromatic, Half Plane, Plane 4x, 10x, 40x (S), 100x (O, S)

...

A11.1170-B

Student biological microscope, binocular

2022 New Design Student Microscope Outlook

Binocular and trinocular head Sedentopf 30° tilted 360°, rotates

High quality achromatic optical system with 4x10x40x100x lenses

...

A11.1170-T

Student biological microscope, trinocular

2022 New Design Student Microscope Outlook

Binocular and trinocular head Sedentopf 30° tilted 360°, rotates

High quality achromatic optical system with 4x10x40x100x lenses

...

A11.1171-B

Student biological microscope, binocular

2022 New Design Student Microscope Outlook

Binocular and trinocular head Sedentopf 30° tilted 360°, rotates

High quality achromatic optical system with 4x10x40x100x lenses

A11.1171-T

Student biological microscope, trinocular

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one camera for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1123-M

Biological microscope, monocular attachment

Economical Binocular Biological Microscope with Dual LED

The binocular head is tilted 45°, rotates 360°, both tubes are diopter adjustable

Eyepiece WF10x/18mm, achromatic objective 4x, 10x, 40x, spring 100x

...

A11.1123-B

Biological microscope, binocular attachment

Economical Binocular Biological Microscope with Dual LED

The binocular head is tilted 45°, rotates 360°, both tubes are diopter adjustable

Eyepiece WF10x/18mm, achromatic objective 4x, 10x, 40x, spring 100x

...

A11.1124

Student Microscope, Wireless Dual Light Source, Plastic Housing

Total magnification 40x~400x

Dual top and bottom LED light source

Wireless Powered by AA 1.5 V batteries 3 pcs.

OPTO-EDU

A11.1143

Dual LED Monocular Student Microscope

Economical monocular and biological microscope with two LEDs

Monocular head tilts 45°, rotates 360°

Eyepiece WF10x/18 mm, achromatic objective 4x, 10x, 40x Spring

...

OPTO-EDU

A11.1321

Student biological microscope, monocular

Classic and popular student microscope model on Amazon market

Monocular head tilts 45°, rotates 360°

Eyepiece WF10x/18 mm, achromatic objective 4x, 10x, 40x Spring

...

A11.1322

Student Biological Microscope, Binocular, Dual LED Light

Classic and popular student microscope model on Amazon market

Binocular head tilts 45°, rotates 360°

Eyepiece WF10x/18 mm, achromatic objective 4x, 10x, 40x Spring

...

A11.1323

Student biological microscope

Student microscope, WF10x
Achromatic 4x/10x/40x Spring
Triple turret
...

A11.1324

Monocular student biological microscope

Monocular head tilts 45°, rotates 360°
Eyepiece WF10x/18 mm, achromatic objective 4x, 10x, 40x Spring
Double layer mechanical stage with iris diaphragm capacitor
...

A11.5121-M

Educational monocular student microscope

Monocular, Binocular, Trinocular with C-Mount 0.3x (optional)

Total Magnification 40x-1600x Achromatic optical system

Double Layer Mechanical Stage 115x125mm with Abbe Capacitor NA1.25

...

A11.5121-B

Binocular student microscope

Monocular, binocular, trinocular head with C-Mount 0.3x

Total Magnification 40x-1600x Achromatic optical system

Double Layer Mechanical Stage 115x125mm with Abbe Capacitor NA1.25

...

OPTO-EDU

A11.5121-T

Trinocular student microscope

Monocular, Binocular, Trinocular with C-Mount 0.3x (optional)

Total Magnification 40x-1600x Achromatic optical system

Double Layer Mechanical Stage 115x125mm with Abbe Capacitor NA1.25

...

OPTO-EDU

A11.5101

Heated biological microscope

Total magnification 40x-640x, eyepiece H10x, H16x, objective 4x,10x,40x

Temperature control and LED display on base

Heated stage 37°C-38°C, size 110mm x 120mm, movable 60mm x 30mm

...

A11.1303-M

Student biological microscope, monocular

Monocular, S-training, V-training, binocular and trinocular attachment (optional)

Wide-angle eyepiece WF10x/18 mm

Quadruple revolver back

...

A11.1303-S

Student Biological Microscope, Dual View S

Monocular, S-training, V-training, binocular and trinocular attachment (optional)

Wide-angle eyepiece WF10x/18 mm

Quadruple revolver back

...

A11.1303-V

Student biological microscope, V double view

Monocular, S-training, V-training, binocular and trinocular attachment (optional)

Wide-angle eyepiece WF10x/18 mm

Quadruple revolver back

...

A11.1303-B

Student biological microscope, binocular

Monocular, S-training, V-training, binocular and trinocular attachment (optional)

Wide-angle eyepiece WF10x/18 mm

Quadruple revolver back

OPTO-EDU

A11.1303-T

Student biological microscope, trinocular

Monocular, S-training, V-training, binocular and trinocular attachment (optional)

Wide-angle eyepiece WF10x/18 mm

Quadruple revolver back

...

OPTO-EDU

A11.1521-M1

Student biological microscope, monocular

Monocular head 45° tilt 360° rotation

Total Magnification 40x-400x Achromatic optical system
Regular working stage 115x125mm with disk diaphragm

...

OPTO-EDU

A11.1521-M

Student biological microscope, monocular

Monocular, binocular, trinocular head (optional)

Total Magnification 40x-1000x Achromatic optical system

Double Layer Mechanical Stage 115x125mm with Abbe Capacitor NA1.25

...

OPTO-EDU

A11.1521-B

Student biological microscope, binocular

Monocular, binocular, trinocular head (optional)
Total Magnification 40x-1000x Achromatic optical system
Double Layer Mechanical Stage 115x125mm with Abbe Capacitor NA1.25

...

A11.1521-T

Student biological microscope, trinocular

Monocular, binocular, trinocular head (optional)
Total Magnification 40x-1000x Achromatic optical system
Double Layer Mechanical Stage 115x125mm with Abbe Capacitor NA1.25

...

A11.1531-M

Biological microscope, monocular

Monocular, V-shape, binocular, trinocular attachments available

The optional WF16x, WF20x eyepiece provides a maximum optical magnification of 2000x.

Abbe Condenser NA 1.25 with iris diaphragm and filter holder

...

A11.1531-V

Biological microscope, teaching head

Monocular, V-shape, binocular, trinocular attachments available

The optional WF16x, WF20x eyepiece provides a maximum optical magnification of 2000x.

Abbe Condenser NA 1.25 with iris diaphragm and filter holder

...

OPTO-EDU

A11.1531-B

Biological microscope, binocular

Monocular, V-shape, binocular, trinocular attachments available

The optional WF16x, WF20x eyepiece provides a maximum optical magnification of 2000x.

Abbe Condenser NA 1.25 with iris diaphragm and filter holder

...

OPTO-EDU

A11.1531-T

Biological microscope, trinocular head

Monocular, V-shape, binocular, trinocular attachments available

The optional WF16x, WF20x eyepiece provides a maximum optical magnification of 2000x.

Abbe Condenser NA 1.25 with iris diaphragm and filter holder

...

OPTO-EDU

A11.1551-M

Biological microscope, monocular

Monocular, binocular, trinocular and teaching head are available for selection.

Quadruple tip with precise click.

Integrated two-layer mechanical stage, size 142x132 mm, movement range 75x50 mm.

...

OPTO-EDU

A11.1551-B

Biological microscope, binocular

Monocular, binocular, trinocular and teaching head are available for selection.

Quadruple tip with precise click.

Integrated two-layer mechanical stage, size 142x132 mm, movement range 75x50 mm.

...

OPTO-EDU

A11.1551-T

Biological microscope, trinocular

Monocular, binocular, trinocular and teaching head are available for selection.

Quadruple tip with precise click.

Integrated two-layer mechanical stage, size 142x132 mm, movement range 75x50 mm.

...

OPTO-EDU

A11.1535-M

Biological microscope, monocular

Classic high school student biology microscope

Monocular, binocular, trinocular and teaching heads available

Wide-angle eyepiece WF10x/18 mm, achromatic lens 4x10x40x(S)100x(O,S)

A11.1535-V

Biological microscope, teaching head

Classic high school student biology microscope

Monocular, binocular, trinocular and teaching heads available

Wide-angle eyepiece WF10x/18 mm, achromatic lens 4x10x40x(S)100x(O,S)

...

A11.1535-B

Biological microscope, binocular

Classic high school student biology microscope

Monocular, binocular, trinocular and teaching heads available

Wide-angle eyepiece WF10x/18 mm, achromatic lens 4x10x40x(S)100x(O,S)

...

A11.1535-T

Biological microscope, trinocular

Classic high school student biology microscope

Monocular, binocular, trinocular and teaching heads available

Wide-angle eyepiece WF10x/18 mm, achromatic lens 4x10x40x(S)100x(O,S)

...

A11.0913-M

Student biological microscope, monocular, achromatic

Elegant new design shape with high quality surface

Superior optical system allows students to easily view clear and crisp images

Double-layer mechanical stage 115x125 mm, coaxial stroke and precise focusing

...

A11.0913-B

Student biological microscope, binocular, achromatic

Elegant new design shape with high quality surface

Superior optical system allows students to easily view clear and crisp images

Double-layer mechanical stage 115x125 mm, coaxial stroke and precise focusing

...

A11.0913-T

Student biological microscope, trinocular, achromatic

Elegant new design shape with high quality surface

Superior optical system allows students to easily view clear and crisp images

Double-layer mechanical stage 115x125 mm, coaxial stroke and precise focusing

...

A11.0913-PB

Student Biological Microscope, Binocular, Plan

Elegant new design shape with high quality surface

Superior optical system allows students to easily view clear and crisp images

Double-layer mechanical stage 115x125 mm, coaxial stroke and precise focusing

...

A11.0913-PT

Student Biological Microscope, Trinocular, Plan

Elegant new design shape with high quality surface

Superior optical system allows students to easily view clear and crisp images

Double-layer mechanical stage 115x125 mm, coaxial stroke and precise focusing

...

A11.0216

Student biological microscope

Binocular attachment with adjustable diopter of the left eyepiece tube

Achromatic/plane quad lens with Polarzier slot

Colorful handle for easy carrying is optional

...

A11.6603-M

Biological microscope, monocular, achromatic

New design in 2019 for students and schools Excellent quality optical system

Winner of the Red Star Award for the best industrial design in China!

3W high brightness LED, support wireless battery charging or solar power

...

A11.6603-B

Biological microscope, binocular, achromatic

New design in 2019 for students and schools Excellent quality optical system

Winner of the Red Star Award for the best industrial design in China!

3W high brightness LED, support wireless battery charging or solar power

...

A11.6603-T

Biological microscope, trinocular, achromatic

New design in 2019 for students and schools Excellent quality optical system

Winner of the Red Star Award for the best industrial design in China!

3W high brightness LED, support wireless battery charging or solar power

...

A11.6603-B1

Biological Microscope, Binoculars, Plan

New design in 2019 for students and schools Excellent quality optical system

Winner of the Red Star Award for the best industrial design in China!

3W high brightness LED, support wireless battery charging or solar power

A11.6603-T1

Biological Microscope, Trinocular, Plan

New design in 2019 for students and schools Excellent quality optical system

Winner of the Red Star Award for the best industrial design in China!

3W high brightness LED, support wireless battery charging or solar power

...

A11.2601-M

Student biological microscope, achromatic, monocular

Wide-angle WF10x/18mm eyepiece, high-contrast achromatic lens 4x, 10x, 40x, 100x

Double mechanical layers movable stage 115x125mm row 70x35mm

Full metal body high rigid design for long working life

...

A11.2601-BP

Student Biological Microscope, Plan, Binoculars

Wide-angle WF10x/18mm eyepiece, high-contrast achromatic lens 4x, 10x, 40x, 100x

Double mechanical layers movable stage 115x125mm row 70x35mm

Full metal body high rigid design for long working life

...

A11.2601-B

Student biological microscope, achromatic, binocular

Wide-angle WF10x/18mm eyepiece, high-contrast achromatic lens 4x, 10x, 40x, 100x

Double mechanical layers movable stage 115x125mm row 70x35mm

Full metal body high rigid design for long working life

...

A11.2601-TP

Student biological microscope, plan, trinocular

Wide-angle WF10x/18mm eyepiece, high-contrast achromatic lens 4x, 10x, 40x, 100x

Double mechanical layers movable stage 115x125mm row 70x35mm

Full metal body high rigid design for long working life

...

A11.2601-T

Student biological microscope, achromatic, trinocular

Wide-angle WF10x/18mm eyepiece, high-contrast achromatic lens 4x, 10x, 40x, 100x

Double mechanical layers movable stage 115x125mm row 70x35mm

Full metal body high rigid design for long working life

...

A11.1009-D

Student biological microscope, monocular

High Quality Compact Student Biological Microscope

Wide-angle eyepiece WF10x/18 mm

Monocular, binocular with 45° head tilt, 360° rotation

...

A11.1009-E

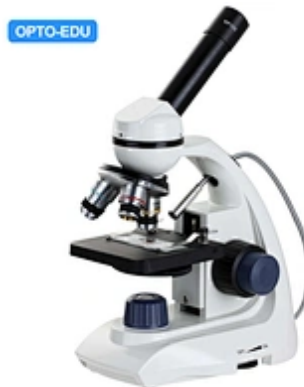

Student biological microscope, binocular

High Quality Compact Student Biological Microscope

Wide-angle eyepiece WF10x/18 mm

Monocular, binocular with 45° head tilt, 360° rotation

...

A11.1020-M

Biological microscope, monocular

Compact Design Full Metal Frame Student Biological Microscope

Monocular, binocular head, WF10x/16mm, WF25x/9mm eyepiece available

Revolver with 3 holes and achromatic lens 4x, 10x, 40x(S)

...

A11.1020-B

Biological microscope, binocular

Compact Design Full Metal Frame Student Biological Microscope
Monocular, binocular head, WF10x/16mm, WF25x/9mm eyepiece available
Revolver with 3 holes and achromatic lens 4x, 10x, 40x(S)

...

A11.1513

Gift set of toy biological microscope

Compound microscope for beginners provides high magnification for educational purposes
Monocular viewing head with LED and mirror illumination and built-in color filter wheel
The forward rotating turret provides 100x, 400x and 900x magnification.

...

OPTO-EDU

A11.1509-M

Student Biological Microscope, 640x, microscope only

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

OPTO-EDU

A11.1509

Student Digital Biological Microscope Gift Set, 1280x

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

OPTO-EDU

A11.1510-M

Student Biological Microscope, 640x, microscope only

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

OPTO-EDU

A11.1510

Student Digital Biological Microscope Gift Set

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x
Clamping table 90x90 mm, movable Vernial Scale (optional)

...

A11.1511-M

Student Biological Microscope, 640x, microscope only

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

A11.1511

Student Digital Biological Microscope Gift Set

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

A11.1512-M

Student Biological Microscope, 640x, microscope only

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

A11.1512

Student Digital Biological Microscope Gift Set, 1280x

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

A11.1512-100K

Digital Student Biological Microscope Gift Set, 1280x, 100K

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

OPTO-EDU

A11.1512-300K

Digital Student Biological Microscope Gift Set, 1280x, 300K

All metal body + glass optical lens Biological microscope

Total magnification 1280x, eyepiece WF10x,16x, Barlow lens 2x, objective 4x,10x,40x

Clamping table 90x90 mm, movable Vernial Scale (optional)

...

OPTO-EDU

A11.1529

Student Microscope, Wireless Dual Light Source, Plastic Housing

40x~400x magnification

Dual top and bottom LED light source

Wireless Powered by AA 1.5 V batteries 3 pcs.

...

A11.1007-17

Laboratory biological microscope XSZ107BN, retractable binocular, black

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting

WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

...

A11.1007-16

Laboratory biological microscope XSZ107BN, educational monocular, black

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting

WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

...

A11.1007-17T

Laboratory biological microscope XSZ107BN, retractable trinocular, black

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting

WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

...

A11.1007-17W

Laboratory Biological Microscope XSZ107BN, Binocular Extension, White

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting

WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

A11.1007-17WT

Laboratory Biological Microscope XSZ107BN, Extendable Trinocular White

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting

WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

...

A11.1007-27

Laboratory biological microscope XSZ107BN, Seidentopf Binocular Black

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting
WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planing objectives (optional)

...

A11.1007-27T

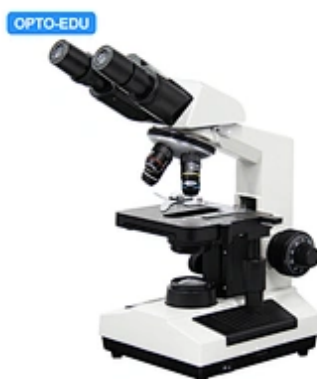

Laboratory biological microscope XSZ107BN, Seidentopf Trinocular Black

107BN best quality microscope with all metal body and high quality achromatic optical system

Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting

WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planing objectives (optional)

...

A11.1007-27W

Laboratory biological microscope XSZ107BN, binocular white Seidentopf

107BN best quality microscope with all metal body and high quality achromatic optical system
Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting
WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

...

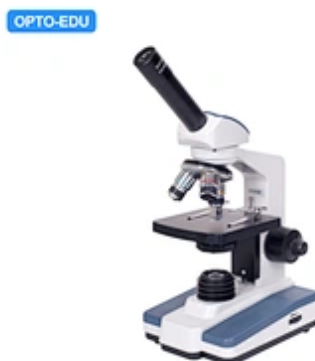

A11.1007-27WT

Laboratory biological microscope XSZ107BN, Seidentopf Trinocular White

107BN best quality microscope with all metal body and high quality achromatic optical system
Upgrade Option Full Range with Darkfield, Phase Contrast, Polarization, Fluorescent Laboratory Lighting
WF10x/18mm high point of view eyepiece, 4x10x40x100x achromatic objective, planning objectives (optional)

...

A11.1133-A

Student biological microscope, monocular, triple

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, binocular and trinocular heads for photo and video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

A11.1133-B

Student biological microscope, monocular, quadruple

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, binocular and trinocular heads for photo and video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

OPTO-EDU

A11.1133-C

Student Biological Microscope, Sliding Binoculars, Quad

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, binocular and trinocular heads for photo and video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

OPTO-EDU

A11.1133-D

Student biological microscope, Sedentopf binoculars, quadruple

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, binocular and trinocular heads for photo and video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

A11.1313-M

Biological microscope, monocular attachment

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, dual view, binocular, trinocular are available for photo-video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

A11.1313-S

Biological microscope, dual viewing head

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, dual view, binocular, trinocular are available for photo-video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

A11.1313-V

Biological microscope, dual viewing head

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, dual view, binocular, trinocular are available for photo-video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

...

A11.1313-B

Biological microscope, Seidentopf binoculars

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, dual view, binocular, trinocular are available for photo-video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

A11.1313-T

Biological microscope, Seidentopf trinocular head

Total magnification 40x-1000x, up to 40x-2500x with optional eyepieces

Monocular, dual view, binocular, trinocular are available for photo-video shooting

Achromatic lens 4x, 10x, 40x, 100x with 4-hole nosepiece

OPTO-EDU

A11.1326

Student biological microscope, round stage

High rigidity all-metal body Total magnification 40x~400x

Fast Moving Round Rotating Work Table Dia. 90mm

Single lens condenser with 6-hole disc diaphragm

...

A11.1325

Student biological microscope

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one camera for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1545

Student Digital Biological Microscope Gift Set

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one camera for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1501

A11.1501

Gift set of toy microscope for children

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1502

A11.1502

Gift set of toy microscope for children

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1503

A11.1503

Gift set of toy microscope for children

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1504

A11.1504

Gift set of toy microscope for children, 1200x

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one case for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1505

Student biological microscope, round stage

Straight monocular with adjustable head tilt

Total magnification 25x-675x, eyepiece H5x, 10x, 15x, objective 5x, 10x, 45x

Separate coarse and fine focusing knobs, 27mm focusing range

...

A11.1506-A1

Student Biological Microscope, Vertical Monocular Head, Coarse Focus

Monocular vertical head, whole body tilt adjustable

40x-400x, WF10x eyepiece, 4x, 10x, 40x achromatic objective

Coarse focus knob, single layer stage

...

OPTO-EDU

A11.1506-A2

Student Biological Microscope, Vertical Monocular Head, Coarse and Fine Focusing

Monocular vertical head, whole body tilt adjustable

40x~400x, WF10x eyepiece, 4x, 10x, 40x achromatic objective

Coarse focus knob, single layer stage

...

OPTO-EDU

A11.1506-A3

Student Biological Microscope, Vertical Monocular Head, Coarse and Fine Focusing

Monocular vertical head, whole body tilt adjustable

40x~400x, WF10x eyepiece, 4x, 10x, 40x achromatic objective

Coarse focus knob, single layer stage

...

A11.1507

Biological microscope

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one case for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

OPTO-EDU

A11.1508-01

Student Biological Microscope, Vertical Monocular Head, 10X, 12.5X Eyepiece

Monocular vertical head, whole body tilt adjustable
Total magnification 40x~1600x available
Coarse and fine focusing knob, focusing range 50mm

...

OPTO-EDU

A11.1508-02

Student Biological Microscope, Vertical Monocular Head, 10X, 16X Eyepiece

Monocular vertical head, whole body tilt adjustable
Total magnification 40x~1600x available
Coarse and fine focusing knob, focusing range 50mm

...

OPTO-EDU

A11.1508-03

Student Biological Microscope, Monocular Straight Head, H5x, 10x Eyepiece

Monocular vertical head, whole body tilt adjustable
Total magnification 40x~1600x available

A11.1530-M

Student biological microscope

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one compound biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1530-V

Student biological microscope

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one compound biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1530-B

Student biological microscope

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one compound biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1530-T

Trinocular biological microscope

Student microscope , mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one compound biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1522-D

Laboratory biological microscope XSZ107BN, binoacular attachment Sedentopf

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1522-E

Laboratory biological microscope XSZ107BN, Sedentopf trinoacular head

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0209-B

Binocular biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0209-T

Trinocular biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

OPTO-EDU

A11.0214-A

Biological microscope, binocular, achromatic

Binocular and trinocular head tilts 30°, rotates 360°

Wide-angle eyepieces available: WF10x/18mm, WF16x/11mm

Achromatic, semi-plane, infinity optical system Optional

...

OPTO-EDU

Student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1141-M

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1316-M

Monocular student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1316-B

Binocular student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1316-T

Student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1316-B1

Binocular student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1316-T1

Trinocular student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0101-A

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0101-B

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0101-C

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0103-A

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0103-B

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0103-C

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0103-D

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0302-T

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0302-B

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0302-D

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0302-M

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301-49

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301-48

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301-43

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301-42

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301-33

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301-32

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0201

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0202

Monocular student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0203

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0204

A11.0204-A Monocular Student Biological Microscope 1000x

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0205

1000X Binocular Biological Student Teaching Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0206

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0207

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0208

Biological microscope

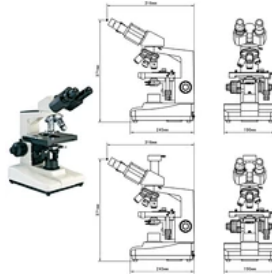

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0210

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0211

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0212

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0213

Binocular student biological microscope with 1000x magnification

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0215

A11.0215 1000x Monocular compound microscope /Student Microscope/ Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1315

A11.1315 40x-1000x mechanical biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1132

OPTO-EDU A11.1132 Economical monocular biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1101

A11.1101-A Student biological microscope with monochrome straight tube 400x

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0801

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0802

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0803

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0804

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0805

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0806

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0807

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0808

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0809

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0810

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0811

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0815

Heated biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0816

Heated biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1514

A11.1514 1600x binocular compound microscope/student microscope/biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0301

1000X Monocular Biomicroscope/Student Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1008

OPTO-EDU A11.1008 Hot Sale Binocular Student Biological Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0827 Biological Microscope

A11.1006

XSZ-107bn Binocular student microscope/biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1127

A11.1127 Monocular biological student microscope with 1000x magnification

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1129

1000X Biological Student Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1137

Binocular attachment 40x-400x Biological student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1136

40x-400x Monocular Attachment Biological Student Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1134

Cost-effective wireless monocular student microscope with 40x-400x magnification

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1128

1000X Biological Student Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0110

40x-1000x Student Biological Microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1527

Plastic student biological microscope

Simple and beautiful design for schoolchildren

Eyepiece 10x~16x Zoom Magnification

Round stage 81mm diameter with clamp

...

A11.0099

Set of toy biological microscopes for students

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1155

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1154

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1151

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1152

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1590

Toy microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1525

Set of microscopes and telescopes

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.6111

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.6112

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0105-23i

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1142

microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1140

microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.5601

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1135

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.4405

Laboratory microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0703

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0704

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0701

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0702

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1204

Biological microscopy

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1205

Biological microscopy

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1010

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1519

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1520

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1517

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1515

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1131

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1130

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1125

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1126

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0307

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0306

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1317

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1314

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1311

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1312

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1309

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1310

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1308

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1306

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1307

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1304

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1305

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1301

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1411

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1412

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1410

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1408

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1409

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1405

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1406

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1404

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1122

Student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1401

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1121

Student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1120

Student biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1119

Economical student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0305

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0304

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0302

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0303

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0903

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1004

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1005

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1003

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1002

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1001

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1118

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1203

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1116

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1117

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1113

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1114

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1112

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1110

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1109

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1107

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1108

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1105

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1106

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1104

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1102

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.1103

Student microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0106

microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0105

microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0103

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0104

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0101

Biological microscope

Student microscope , mainly for use in elementary school, high school and u students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one c biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.

A11.0102

Biological microscope

Student microscope, mainly for use in elementary school, high school and university students, is a lower level compound microscope. It usually comes with a portable, plastic or metal body, a set of experimental materials, an all-in-one for biological and stereoscopic imaging, etc. For the classroom and laboratory these student microscopes are excellent tools for teaching and research.
